詳細情報

授業のテーマと到達目標	The students taking this course will be able to understand the basic structure of international environmental law, by analyzing relevant academic articles, international instruments and jurisprudence. Through the professor's diplomatic experience in international environmental treaty-making processes, the students will also be able to see the dynamic nature of international environmental law. [EUIJ Subject]
授業の概要と計画	<p>By analysing the following 12 themes (subject to change), the students will be able to grasp both the foundation and the dynamics of international environmental law.</p> <p>THEME 1: How is international environmental law made and applied? 成績評価と基準	The students will be evaluated on the basis of a combination of class participation, presentations, and occasional mini-reports. There will be no end-of-the-class examination.

履修上の注意 (関連科目情報等を含む)	The students are expected to come to class prepared, by reading "must read" materials. The students are expected to actively participate in the discussion. This class is conducted in seminar style.
オフィスアワー・連絡先	Anytime by appointment. The students are expected to make appointment by e-mail at least 2 days before the expected consultation. 詳細情報
学生へのメッセージ	As a legal consultant for Japan's Ministry of Foreign Affairs, the professor has been involved in diplomatic negotiations of many environmental treaties, including the Cartagena Protocol on Biosafety, Antarctic Environmental Protocol, Basel Convention on Hazardous Wastes, and CITES on Endangered Species. It is hoped that the students will also see the "reality" behind the ideal of "global environmental protection".
今年度の工夫	More concrete cases will be examined this year.
