

Opening Address

"Physics Beyond the Standard Model and Predictable
Observables"
(Kobe, Jan. 6-7, 2011)

C.S. Lim & K. Kawagoe

Purpose

To provide the opportunities to discuss theoretical ideas of **BSM** from various point of view.

At the same time, the most recent results from **ATLAS** being reported, it is aimed that BSM is discussed from **both of theoretical and experimental** aspects.

Please **ask questions even during the talks !**

Announcement

1. 自分で宿泊先を手配された方は、旅費の事務手続き上必要ですので、受付の受付簿へ宿泊先ホテル名をご記入ください。
2. When you use your note PC, please use your battery as much as possible, instead of connecting to the outlets, in order to avoid the shortage of the power supply.
3. “meal ticket” (2 tickets for each person)
You can enjoy special menu for the workshop at the restaurant downstairs (service).
 - Valid for the lunches of 6th and 7th .
 - At the restaurant, take a tray and give a ticket to a lady at the “order counter”.
4. Dinner tonight: If you wish to attend, please sign up at the reception desk before the last session starts.
5. To the speakers:
Unless you use your own PC, please hand the file of your slide to our graduate student (Mr. Fujimoto) in advance. Also, please let him know if you agree to put the file on the web-page of the workshop.
